

*"We will never stand still.
We keep innovating with new developments
and improving on existing products.
But above all, we continue to keep
our software affordable, intuitive and flexible."*

Marco Hinic † - Founder of Arkaos

MEDIASERVERS

VS1

VS4

VS1

SLICK DESIGN, PORTABLE AND POWERFUL

VS1 runs 4K video sources – with 2x HDMI and USB-C outs on the back of the device – giving the best and most vibrant results in a hugely flexible and user-friendly control package. Its compact dimensions of 143.2mm x 195mm x 43 mm and triple unit

in a 1U footprint means that several VS1 devices can be rigged in the same rack housing if desired, and the light weight of just 1.28 Kg plus its robust, quality-engineering make it perfect for touring light operators, VJs and DJs.

PLUG AND PLAY SIMPLICITY

- Each server comes installed with MediaMaster Pro
- Runs 4K video on its output

ROCK-SOLID RELIABILITY & PORTABILITY FOR CONCERT AND TOURS

When you need complete scalability, process control, and instant access, to manipulate several layers and scales simultaneously live on stage, it's good to know you can rely on ArKaos innovation. With us, you have a promise of outstanding performance and rock-solid reliability. Small enough to carry around in your backpack.

THE FAVORITE SOLUTION FOR INSTALL

ArKaos VS1 is a very flexible solution, with its triple unit in 1U footprint it's ideal for churches, museums, bars, art installations, fashion shows, corporate events, video production companies, and much more.

LAN	2,5 Gb/s
USB	1x USB3.0 (front), 1x USB2.0 & 1xUSB3.2 (rear)
Size	143,2mm x 195mm x 43 mm
Weight	1,3 Kg
Power	Neutrik powerCON TRUE1

VS4

AN INDUSTRIAL STRENGTH DESIGN WITH A BLISTERINGLY FAST GRAPHICS ENGINE

The VS4 is a cost-efficient 19 inch rack mounting solution with full control over media inputs. It's an intuitive and feature-packed visual tool that works seamlessly with ArKaos MediaMaster software. Designed for high-end television studios, streaming facilities, and broadcast scenarios, it also suits production, touring, and rental markets due to its

rugged engineering. With two interface connections, USB connectivity, and Neutrik PowerCON, the VS4 is easy to use. It can control up to 16 HD screens, and multiple VS4's can be networked for even more screens. The front panel LEDs can indicate status or help with fault finding.

PLUG AND PLAY SIMPLICITY

- Each server comes installed with MediaMaster Pro
- Runs 4K video on its multiple outputs
- 4x4K or 16 HD screens

MAKE DAY-TO-DAY OR ON-THE-ROAD MAINTENANCE EASY

The backplate opens and the cables can be extended so if a connector needs to be swapped out, the process is straightforward and painless. LED illumination on the rear allows technicians to see what's happening in the dark – handy when working onstage, on a set or in any dark corner or recess!

FULLY MODULAR SYSTEM

VS4 units can be built up as required by adding input cards. The basic version and its possible options allows users to tailor the VS4 precisely to their needs and also utilise their budgets efficiently.

Technical Specifications	VS4
RAM	4x 8GB Crucial SODIMM
CPU	AMD Ryzen Threadripper PRO
